

§ 302-7.8

from the authorized origin to the authorized destination.

§ 302-7.8 At what location can CONUS-to-CONUS or OCONUS-to-CONUS HHG shipments be temporarily stored?

Your HHG may be placed in temporary storage at origin, in transit, at destination, or any combination thereof upon agency approval.

[FTR Amdt. 2011-01, 76 FR 18340, Apr. 1, 2011]

§ 302-7.9 What are the time limits for the temporary storage of authorized HHG shipments?

(a) *For CONUS to CONUS shipments.* The initial period of temporary storage at Government expense may not exceed 60 days. You may request additional time, up to a maximum of 90 days, and you must make such a request prior to the expiration of the original 60 days. This extension must be approved by the agency official designated for such requests. Under no circumstances may temporary storage at Government expense for CONUS to CONUS shipments exceed a total of 150 days.

(b) *For shipments that include an OCONUS origin or destination.* The initial period of temporary storage at Government expense may not exceed 90 days. You may request additional time, up to a maximum of 90 days, and you must make such a request prior to the expiration of the original 90 days. This extension must be approved by the agency official designated for such requests. Under no circumstances may temporary storage for shipments at Government expense that include an OCONUS origin or destination exceed a total of 180 days.

[FTR Amdt. 2011-01, 76 FR 18340, Apr. 1, 2011]

41 CFR Ch. 302 (7-1-12 Edition)

§ 302-7.10 What are the reasons that would justify the additional storage beyond the initial 60 days CONUS and 90 days OCONUS limits?

Reasons for justifying temporary storage beyond the initial limit include, but are not limited to:

- (a) An intervening temporary duty or long-term training assignment;
- (b) Non-availability of suitable housing;
- (c) Completion of residence under construction;
- (d) Serious illness of employee or illness or death of a dependent; or
- (e) Strikes, acts of God, or other circumstances beyond the control of the employee.

[FTR Amdt. 2011-01, 76 FR 18340, Apr. 1, 2011]

§ 302-7.11 Is property acquired en route eligible for transportation at Government expense?

No, property acquired en route will not be eligible for transportation at Government expense.

[FTR Amdt. 98, 66 FR 58196, Nov. 20, 2001. Redesignated by FTR Amdt. 2011-01, 76 FR 18340, Apr. 1, 2011]

§ 302-7.12 What is the Government's liability for loss or damage to HHG?

The Government's liability for loss or damage to HHG is determined by your agency under title 31 U.S.C. 3721-3723 and agency implementing rules and regulations issued pursuant to the law.

[FTR Amdt. 98, 66 FR 58196, Nov. 20, 2001. Redesignated by FTR Amdt. 2011-01, 76 FR 18340, Apr. 1, 2011]

§ 302-7.13 What are the various methods of shipping HHG and how is the weight determined for each type of shipment?

HHG should be shipped by the most economical method available. The various methods of shipment and weight calculations include the following:

Method of shipment	How weight of shipment is determined
(a) Uncrated (shipped in HHG movers van or similar conveyance).	An allowance of up to 2,000 pounds, exclusive of the 18,000 pounds net weight of HHG shipment, is used for the packing weight covering barrels, boxes, cartons, and similar material but does not include pads, chains, dollies and other equipment to load and secure the shipment.

Relocation Allowances

§ 302-7.16

Method of shipment	How weight of shipment is determined
(b) Crated shipments	When crated the net weight will not include the weight of the crating material. The net weight will be computed as being 60 percent of the gross weight. However, if the net weight computed in this manner exceeds the applicable weight limitation and if it is determined that, for reasons beyond the employee's control, unusually heavy crating and packing materials were necessarily used, the net weight may be computed at less than 60 percent of the gross weight.
(c) Containerized shipments (Special containers designed, e.g., lift vans, CONEX transporters, HHG shipping boxes, for repeated use).	When the known tare weight does not include the weight of interior bracing and padding materials but only the weight of the container, the net weight will be 85 percent of the gross weight less the weight of the container. If the known tare weight includes such material, so that the net weight is the same as it would be for uncrated shipments in interstate commerce, the net weight will not be subject to reduction.
(d) Constructive weight	If adequate scales are not available at origin, en route or at destination, a constructive weight based on 7 pounds per cubic foot of properly loaded van space may be used. Such weight may be used for a part-load when its weight could not be obtained, without first unloading it or other part-loads being carried in the same vehicle or when the HHG are not weighed because the carrier's charges for local or metropolitan area moves are properly computed on the basis other than weight or volume of the shipment (as when payment is based on an hourly rate and distance involved). In such instances a statement from the carrier showing the properly loaded van space required for the shipment should be obtained with respect to proof of entitlement to a commuted rate payment when net weight cannot be shown.

[FTR Amdt. 98, 66 FR 58196, Nov. 20, 2001. Redesignated and amended by FTR Amdt. 2011-01, 76 FR 18340, Apr. 1, 2011]

§ 302-7.14 What methods of transporting and paying for the movement of HHG, PBP&E and temporary storage are authorized?

There are two authorized methods of transporting and paying for the movement of HHG, PBP&E and temporary storage. Your agency will determine which of the following methods will be authorized.

(a) *Commuted rate system.* Under the commuted rate system you assume total responsibility for arranging and paying for, at least the following services: packing/unpacking, crating/uncrating, pickup/delivery, weighing, line-haul, drayage, and temporary storage of your HHG and PBP&E with a commercial HHG carrier or by renting self drive equipment for a do-it-yourself move. When any PBP&E is transported as an administrative expense of your agency, all arrangements (e.g., packing/unpacking, pickup/delivery, weighing, temporary storage, etc.) will be handled and paid for by your agency.

(b) *Actual expense method.* Under the actual expense method, your agency assumes the responsibility for arranging and paying for all aspects (e.g., packing/unpacking, pickup/delivery, weighing, line-haul, drayage, temporary storage, etc.), of transporting

your HHG and PBP&E with a commercial HHG carrier.

[FTR Amdt. 98, 66 FR 58196, Nov. 20, 2001. Redesignated by FTR Amdt. 2011-01, 76 FR 18340, Apr. 1, 2011]

§ 302-7.15 Are there any disadvantages to using the commuted rate method for transporting HHG, PBP&E and temporary storage?

Yes. The disadvantages to using the commuted rate method for transporting HHG, PBP&E and temporary storage are that the:

(a) Government cannot take advantage of any special rates that may be offered only to Government shipments;

(b) Commuted rate method does not apply to intrastate moves; and

(c) Commuted rate method may not fully reimburse your out-of-pocket expenses.

[FTR Amdt. 98, 66 FR 58196, Nov. 20, 2001. Redesignated by FTR Amdt. 2011-01, 76 FR 18340, Apr. 1, 2011]

§ 302-7.16 Must I use the methods selected by my agency for transportation and temporary storage of my HHG and PBP&E?

No, you do not have to use the method selected (see § 302-7.401) by your agency for transportation and temporary storage of your HHG and PBP&E. You may pursue other methods; however, your reimbursement is limited to the actual cost incurred, not
